

Schmidt Products, LLC Launches Spot 'N Hitch® to Help Customers Easily Align their Trailers

Schmidt Products, LLC launches Spot 'N Hitch® on Ebay and Amazon to provide owners of recreational vehicles, boat, utility, horse, personal water craft or all-terrain vehicle trailers an easy way to align to their vehicle.

Valrico, FL ([PRWEB](#)) April 2, 2009 -- Schmidt Products, LLC has just launched its new patent pending Spot 'N Hitch® trailer hitch alignment tool to help owners of trailers easily attach them to their vehicles without having to get out of their vehicle to check alignment. Initial inventory of Spot 'N Hitch® was built in February and is now available for sale on Ebay and Amazon. Schmidt Products, LLC will also be expanding the product launch by adding national distributors in the 2nd quarter of 2009.

This new product from Schmidt Products, LLC has been under development for the past three years and this research has resulted in a new hitch accessory that is durable, accurate, easy to stow, and affordable. There are other hitch alignment products on the market but Spot 'N Hitch® addresses cost, durability and accuracy issues of these existing products. Market focus will be on customers and distributors of RV's, utility trailers, snowmobiles, ATV's, boats, and horse trailers.

This is the second product from Schmidt Products, LLC that is now on the market. The first product was Hitch 'N Plow® which was licensed to Swisher Mower and Machine Inc. and launched in early 2008. This expands Schmidt Products, LLC's focus from develop, patent and license to develop, patent, produce and market. "This is a new experience developing, producing and marketing a new product compared to what we did during the Hitch 'N Plow® launch but it has been very rewarding and we are excited about the market potential of this new product," said Bob Schmidt, principal of Schmidt Products, LLC. "This will allow us to expand into new markets and aid in the development and launch of new products."
